(1d) “Baseload electric generating facility” means an electric generating facility that has a capacity factor that is greater than 60 percent, as determined by the public service commission.

(1f) “Capacity factor” means the anticipated actual annual output of an electric generating facility expressed as a percentage of the facility’s potential output. For purposes of this subchapter, the public service commission may review the capacity factor of an electric generating facility at any time.

(1g) “Cogeneration production plant” means an electric generating facility that produces electricity and another form of thermal energy, including heat or steam, that is used for industrial, commercial, heating, or cooling purposes.

(1m) “Municipality” means any town, village or city in this state. If a municipality is located in more than one county, payments under this subchapter shall be computed using data for the municipality as a whole.

(2) “Population” means the number of persons residing in each municipality and county of the state as last determined by the department of administration under s. 16.96.

(2m) “Power generation unit” means a complete set of electric generating equipment, as defined in s. 196.52 (9) (a) 1., that, collectively, is sufficient to generate electric power.

(3) “Production plant” does not include substations and general structures.

(4) “Repowered” means any of the following:

(a) Replacing the boiler on an existing fossil fuel steam unit with a combustion turbine and heat recovery steam generator and reusing the steam turbine and heat rejection system.

(b) Adding a heat recovery steam generator to a simple cycle combustion turbine.

(c) Demolishing or abandoning an existing power generation unit and replacing it with a new power generation unit at the same site.

(d) Replacing steam generating equipment at a combustion-based renewable facility, as defined in s. 196.378 (1) (g), that is located in this state, to increase efficiency or capacity, if the facility remains a combustion-based renewable facility, as defined in s. 196.378 (1) (g), after replacing the equipment.

79.02 Shared revenue distributions. (1) The department of administration, upon certification by the department of revenue, shall distribute shared revenue payments to each municipality and county on the 4th Monday in July and the 3rd Monday in November.

(2) (a) In this subsection, “estimated payments” means the amounts in the statement provided to the county or municipality under s. 79.015.

(b) Subject to ss. 59.605 (4) and 70.995 (14) (b), payments in July shall equal 15 percent of the municipality's or county's estimated payments under ss. 79.035 and 79.04 and 100 percent of the municipality's estimated payments under s. 79.05.

79.035 County and municipal aid. (1) Each county and municipality shall receive a payment from the county and municipal aid account and from the appropriation account under s. 20.835 (1) (r) in an amount determined under this section.

(3) For the distribution in 2011, each county and municipality shall receive a payment under this section that is equal to the amount of the payment determined for the county or municipality under s. 79.02 (4), 2009 stats., in 2010.

(b) 1. To calculate the reduction under this subsection for each municipality, the department of revenue shall first divide \$47,663,400 by the total population of all municipalities. The department shall then adjust the result of the calculation to establish a per capita amount applied to all municipalities so that the reduction for each municipality is no more than the maximum allowable reduction under this subsection for that municipality and so that the total reductions to county and municipal aid payments for municipalities under this subsection is \$47,663,400.

2. To calculate the reduction under this subsection for each county, the department of revenue shall first divide \$29,086,600 by the total population of all counties. The department shall then adjust the result of the calculation to establish a per capita amount applied to all counties so that the reduction for each county is no more than the maximum allowable reduction under this subsection for that county and so that the total reductions to county and municipal aid payments for counties under this subsection is \$29,086,600.

(c) 1. The reduction for a municipality that has a population of less than 2,500 is the amount calculated by multiplying the amount determined under par. (b) 1. by the municipality's population, multiplied by the quotient of the municipality's population divided by 2,500.

2. Except as provided under par. (h), the reduction determined under this paragraph may not exceed the lesser of an amount equal to 15 percent of the municipality's payment under this section in 2011, prior to any reduction under s. 79.02 (3) (e), or 10 cents for each \$1,000 of the municipality's equalized value, as determined under s. 70.57.

(d) 1. The reduction for a municipality that has a population of at least 2,500, but no greater than 10,000, is the amount equal to 10 cents for each \$1,000 of the municipality's equalized value, as determined under s. 70.57, plus the amount determined as follows:

- a. Multiply the amount determined under par. (b) 1. by the municipality's population.
- b. Subtract 2,500 from the municipality's population.

c. Divide the number determined under subd. 1. b. by 7,500.

d. Multiply the number determined under subd. 1. a. by the number determined under subd. 1. c.

2. Except as provided in par. (h), the reduction determined under this paragraph may not exceed the lesser of an amount equal to 15 percent of the municipality's payment under this section in 2011, prior to any reduction under s. 79.02 (3) (e), or 15 cents for each \$1,000 of the municipality's equalized value, as determined under s. 70.57.

(e) 1. The reduction for a municipality that has a population greater than 10,000, but no greater than 50,000, is the amount equal to 15 cents for each \$1,000 of the municipality's equalized value, as determined under s. 70.57, plus the amount determined as follows:

- a. Multiply the amount determined under par. (b) 1. by the municipality's population.
- b. Subtract 10,000 from the municipality's population.
- c. Divide the number determined under subd. 1. b. by 40,000.
- d. Multiply the number determined under subd. 1. a. by the number determined under subd. 1. c.

2. Except as provided in par. (h), the reduction determined under this paragraph may not exceed the lesser of an amount equal to 15 percent of the municipality's payment under this section in 2011, prior to any reduction under s. 79.02 (3) (e), or 25 cents for each \$1,000 of the municipality's equalized value, as determined under s. 70.57.

(f) 1. The reduction for a municipality that has a population greater than 50,000, but no greater than 110,000, is the amount equal to 25 cents for each \$1,000 of the municipality's equalized value, as determined under s. 70.57, plus the amount determined as follows:

- a. Multiply the amount determined under par. (b) 1. by the municipality's population.
- b. Subtract 50,000 from the municipality's population.
- c. Divide the number determined under subd. 1. b. by 60,000.
- d. Multiply the number determined under subd. 1. a. by the number determined under subd. 1. c.

2. Except as provided in par. (h), the reduction determined under this paragraph may not exceed the lesser of an amount equal to 15 percent of the municipality's payment under this section in 2011, prior to any reduction under s. 79.02 (3) (e), or 30 cents for each \$1,000 of the municipality's equalized value, as determined under s. 70.57.

(g) The reduction for a municipality that has a population greater than 110,000 is an amount equal to 30 cents for each \$1,000 of the municipality's equalized value, as determined under s. 70.57, plus an amount equal to the municipality's population multiplied by the amount determined under par. (b) 1., except that the reduction determined under this paragraph may not exceed the lesser of an amount equal to 25 percent of the municipality's payment under this section in 2011, prior to any reduction under s. 79.02 (3) (e), or 35 cents for each \$1,000 in equalized value, as determined under s. 70.57.

(h) The reduction determined under par. (c), (d), (e), or (f) for a town or village may not exceed the lesser of an amount equal to 25 percent of the town's or village's payment under this section in 2011, prior to any reduction under s. 79.02 (3) (e), or the amount determined under par. (c) 2., (d) 2., (e) 2., or (f) 2. based on equalized value.

(i) The reduction for a county is the amount determined under par. (b) 2. multiplied by the county's population, except that the reduction determined under this paragraph may not exceed the lesser of an amount equal to 25 percent of the county's payment under this section in 2011, prior to any reduction under s. 79.02 (3) (e), or 15 cents for each \$1,000 of the county's equalized value, as determined under s. 70.57.

(5) Except as provided in sub. (6), for the distribution in 2013 and subsequent years, each county and municipality shall receive

a payment under this section that is equal to the amount of the payment determined for the county or municipality under this section for 2012.

NOTE: Sub. (5) is repealed and recreated eff. 6–30–36 by 2015 Wis. Act 60 to read:

79.04 Public utility distribution. (1) Annually, except for production plants that begin operation after December 31, 2003, or begin operation as a repowered production plant after December 31, 2003, and except as provided in sub. (4m), the department of administration, upon certification by the department of revenue, shall distribute to a municipality having within its boundaries a production plant, general structure, or substation, used by a light, heat, or power company assessed under s. 76.28 (2) or 76.29 (2), except property described in s. 66.0813 unless the production plant or substation is owned or operated by a local governmental unit located outside of the municipality, or by an electric cooperative assessed under ss. 76.07 and 76.48, respectively, or by a municipal electric company under s. 66.0825 the amount determined as follows:

(a) An amount from the public utility account determined by multiplying by 3 mills in the case of a town, and 6 mills in the case of a city or village, the first \$125,000,000 of the amount shown in the account, plus leased property, of each public utility except qualified wholesale electric companies, as defined in s. 76.28 (1) (gm), on December 31 of the preceding year for “production plant, exclusive of land,” “general structures,” and “substations,” in the case of light, heat and power companies, electric cooperatives or municipal electric companies, for all property within a municipality in accordance with the system of accounts established by the public service commission or rural electrification administration, less depreciation thereon as determined by the department of revenue and less the value of treatment plant and pollution abatement equipment, as defined under s. 70.11 (21), as determined by the department of revenue plus an amount from the public utility account determined by multiplying by 3 mills in the case of a town, and 6 mills in the case of a city or village, of the first \$125,000,000 of the total original cost of production plant, general structures, and substations less depreciation, land and approved waste treatment facilities of each qualified wholesale electric company, as defined in s. 76.28 (1) (gm), as reported to the department of revenue of all property within the municipality. The total of amounts, as depreciated, from the accounts of all public utilities for the same production plant is also limited to not more than \$125,000,000. The amount distributable to a municipality under this subsection and sub. (6) in any year shall not exceed \$300 times the population of the municipality, except that, beginning with payments in 2009, the amount distributable to a municipality under this subsection and sub. (6) in any year shall not exceed \$425 times the population of the municipality.

(b) 1. Beginning with the distribution under this subsection in 1991, and ending with the distribution under this subsection in 2008, the amount determined under par. (a) to value property used by a light, heat or power company in a municipality may not be less than the amount determined to value the property for the distribution to the municipality under this subsection in 1990, subject to subs. 2., 3. and 4.

2. When a light, heat or power company no longer uses property described under par. (a) as production plant, substation, or general structure in a municipality, the amount established under

subd. 1. shall be reduced by the proportion that the property that is no longer used bears to the total value of all property described in par. (a) in the municipality. The proportion shall be determined according to the proportional value of the property when the light, heat or power company stops using the property.

3. The amount of a distribution under this paragraph, as affected by subd. 1., may not exceed the per capita amount established under par. (a).

4. If property of a light, heat or power company described under par. (a) is included in the value of property for the distribution to the municipality under this subsection in 1990 and is located in territory annexed by another municipality after December 31, 1989, the amount established under subd. 1. shall be reduced annually by one-fifth of the value of the property located in the annexed territory for 5 consecutive years, beginning with the distribution in 1994 or with the first distribution after the year in which the annexation occurs, whichever is later.

(c) 1. The payment for any municipality in which a production plant is located, which the public service commission certifies to the department of revenue will produce a nominal rated capacity of 200 megawatts or more, shall be no less than \$75,000 annually, except that the amount distributable to a municipality in any year shall not exceed the per capita limit specified in par. (a).

2. If a production plant is located in more than one municipality, the total payment under subd. 1. shall be apportioned according to the amounts shown on the preceding December 31 for the production plant in the account described in par. (a) for “production plant exclusive of land” within each municipality for all public utilities except qualified wholesale electric companies, as defined in s. 76.28 (1) (gm), or according to the value as reported to the department of revenue under par. (a) of the production plant within each municipality for each qualified wholesale electric company. The payment to each municipality under this subdivision shall be no less than \$15,000 annually.

3. If a production plant with a nominal rated capacity of 200 megawatts or more is decommissioned or becomes nonutility property, the \$75,000 minimum guaranteed payment under subd. 1. shall continue but diminish by \$7,500 annually, except that the minimum guaranteed payment under this subdivision shall cease in the year following the first year in which the property becomes taxable by the taxation district. In this subdivision, “nonutility property” has the meaning set forth in the uniform system of accounts established by the public service commission. This subdivision does not apply after the distributions in 2004.

(2) (a) Annually, except for production plants that begin operation after December 31, 2003, or begin operation as a repowered production plant after December 31, 2003, and except as provided in sub. (4m), the department of administration, upon certification by the department of revenue, shall distribute from the public utility account to any county having within its boundaries a production plant, general structure, or substation, used by a light, heat or power company assessed under s. 76.28 (2) or 76.29 (2), except property described in s. 66.0813 unless the production plant or substation is owned or operated by a local governmental unit that is located outside of the municipality in which the production plant or substation is located, or by an electric cooperative assessed under ss. 76.07 and 76.48, respectively, or by a municipal electric company under s. 66.0825 an amount determined by multiplying by 6 mills in the case of property in a town and by 3 mills in the case of property in a city or village the first \$125,000,000 of the amount shown in the account, plus leased property, of each public utility except qualified wholesale electric companies, as defined in s. 76.28 (1) (gm), on December 31 of the preceding year for “production plant, exclusive of land,” “general structures,” and “substations,” in the case of light, heat and power companies, electric cooperatives or municipal electric companies, for all property within the municipality in accordance with the system of accounts established by the public service commission or rural electrification administration, less depreciation thereon as determined by the department of revenue and less the value of treat-

ment plant and pollution abatement equipment, as defined under s. 70.11 (21), as determined by the department of revenue plus an amount from the public utility account determined by multiplying by 6 mills in the case of property in a town, and 3 mills in the case of property in a city or village, of the total original cost of production plant, general structures, and substations less depreciation, land and approved waste treatment facilities of each qualified wholesale electric company, as defined in s. 76.28 (1) (gm), as reported to the department of revenue of all property within the municipality. The total of amounts, as depreciated, from the accounts of all public utilities for the same production plant is also limited to not more than \$125,000,000. The amount distributable to a county under this subsection and sub. (6) in any year shall not exceed \$100 times the population of the county, except that, beginning with payments in 2009, the amount distributable to a county under this subsection and sub. (6) in any year shall not exceed \$125 times the population of the county.

(am) 1. Beginning with the distribution under this subsection in 1991, and ending with the distribution under this subsection in 2008, the amount determined under par. (a) to value property used by a light, heat or power company in a county may not be less than the amount determined to value the property for the distribution to the county under this subsection in 1990, subject to subs. 2. and 3.

2. When a light, heat or power company no longer uses property described under par. (a) as production plant, substation, or general structure in a county, the amount established under subd. 1. shall be reduced by the proportion that the property that is no longer used bears to the total value of all property described in par. (a) in the county. The proportion shall be determined according to the proportional value of the property when the light, heat or power company stops using the property.

3. The amount of a distribution under this paragraph, as affected by subd. 1., may not exceed the per capita amount established under par. (a).

(b) The payment under par. (a) for any county in which a production plant is located, which the public service commission certifies to the department of revenue will produce a nominal rated capacity of 200 megawatts or more, shall be not less than \$75,000 annually, except that the amount distributable to a county in any year shall not exceed the per capita limit specified in par. (a).

(3m) For purposes of determining the amount of the payments under subs. (1) and (2), the payments for a municipality and county in which an ash disposal facility that is owned and operated by an electric cooperative is operating prior to July 30, 2003, shall be calculated to include an amount that is equal to the net book value of the ash disposal facility multiplied by 2.

(4) (a) Annually, in addition to the amounts distributed under subs. (1), (5), (6), and (7), the department of administration shall distribute \$50,000 to a municipality if spent nuclear fuel is stored within the municipality on December 31 of the preceding year. If a spent nuclear fuel storage facility is located within one mile of a municipality, that municipality shall receive \$10,000 annually and the municipality where that storage facility is located shall receive \$40,000 annually.

(b) Annually, in addition to the amounts distributed under subs. (2), (5), (6), and (7), the department of administration shall distribute \$50,000 to a county if spent nuclear fuel is stored within the county on December 31 of the preceding year. If a spent nuclear fuel storage facility is located at a production plant located in more than one county, the payment shall be apportioned according to the formula under sub. (1) (c) 2., except that the formula, as it applies to municipalities in that subdivision, applies to counties in this paragraph. The payment under this paragraph may not be less than \$10,000 annually.

(4m) (a) Except as provided in par. (b), beginning with distributions in 2009, for production plants described under subs. (1) and (2), if in any year the payments to the municipality and county

in which the production plant is located would be greater under subs. (6) and (7) (c) 1. based on the production plant's name-plate capacity than under sub. (1) or (2) based on the depreciated net book value of the production plant, the municipality and county shall receive payments under subs. (6) and (7) (c) 1., rather than under sub. (1) or (2), beginning in that year and in each year thereafter.

(b) For municipalities where production plants are located, if the combination of amounts determined for production plants under sub. (1) or under subs. (6) and (7) (c) 1. and the amounts determined for substations and general structures under sub. (1) are less for a municipality than the amount determined under sub. (1) based on the value of the property used to calculate the municipality's payment in 1990, reduced to reflect the value of property that is no longer in use, the municipality's payment shall be calculated under sub. (1) using the value of the property used to calculate the municipality's payment in 1990, reduced to reflect the value of property no longer in use.

(5) (a) If property that was exempt from the property tax under s. 70.112 (4) and that was used to generate power by a light, heat, or power company, except property under s. 66.0813, unless the production plant is owned or operated by a local governmental unit located outside of the municipality, or by an electric cooperative, or by a municipal electric company under s. 66.0825, is decommissioned or closed, the municipality shall be paid, from the public utility account, an amount equal to the following percentages of the payment that the municipality received under this section during the last year that the property was exempt from the property tax:

1. In the first year that the property is taxable, 100 percent.
2. In the 2nd year that the property is taxable, 80 percent.
3. In the 3rd year that the property is taxable, 60 percent.
4. In the 4th year that the property is taxable, 40 percent.
5. In the 5th year that the property is taxable, 20 percent.

(bn) *First dollar credit.* Except as provided in ss. 79.175 and 79.18, and subject to s. 79.15, the first dollar credit shall be allocated to every parcel of real estate on which improvements are located in an amount determined by multiplying the estimated fair market value of the property, not exceeding the value determined under sub. (11) (d), by the school tax rate.

(c) *Credits shown on tax bill.* 1. The lottery and gaming credit under par. (bm) shall reduce the property taxes otherwise payable on property that is eligible for that credit and if the property owner completes the information required under sub. (10) (a) or (b).

2. The credit under par. (b) shall reduce the property taxes otherwise payable.

3. The credit under par. (bn) shall reduce the property taxes otherwise payable.

(d) *Credit limit.* No taxpayer may receive in respect to any parcel credits under this subchapter that exceed the total amount of property taxes due on that parcel.

(10) *CLAIMING THE LOTTERY AND GAMING CREDIT.* (a) Beginning with property taxes levied in 1999, the owner of a principal dwelling may claim the credit under sub. (9) (bm) by applying for the credit on a form prescribed by the department of revenue. A claimant shall attest that, as of the certification date, the claimant is an owner of property and that such property is used by the owner in the manner specified under sub. (1) (dm). The certification date is January 1 of the year in which the property taxes are levied. The claimant shall file the application for the lottery and gaming credit with the treasurer of the county in which the property is located or, if the property is located in a city that collects taxes under s. 74.87, with the treasurer of the city in which the property is located. Subject to review by the department of revenue, a treasurer who receives a completed application shall direct that the property described in the application be identified on the next tax roll as property for which the owner is entitled to receive a lottery and gaming credit. A claim that is made under this paragraph is valid for as long as the property is eligible for the credit under sub. (9) (bm).

(b) A person who becomes eligible for a credit under sub. (9) (bm) may claim the credit by filing an application, on a form prescribed by the department of revenue, with the treasurer of the county in which the property is located or, if the property is located in a city that collects taxes under s. 74.87, with the treasurer of the city in which the property is located. Claims made under this paragraph are valid for as long as the property is eligible for the credit under sub. (9) (bm).

(bm) 1. A person who is eligible for a credit under sub. (9) (bm) but whose property tax bill does not reflect the credit may claim the credit by applying to the treasurer of the taxation district in which the property is located for the credit under par. (a) by January 31 following the issuance of the person's property tax bill. The treasurer shall compute the amount of the credit; subtract the amount of the credit from the person's property tax bill; notify the person of the reduced amount of the property taxes due; issue a refund to the person if the person has paid the property taxes in full; and enter the person's property on the next tax roll as property that qualifies for a lottery and gaming credit. Claims made under

this subdivision are valid for as long as the property is eligible for the credit under sub. (9) (bm).

2. A person who may apply for a credit under subd. 1. but who does not timely apply for the credit under subd. 1. may apply to the department of revenue no later than October 1 following the issuance of the person's property tax bill. Subject to review by the department, the department shall compute the amount of the credit; issue a check to the person in the amount of the credit; and notify the treasurer of the county in which the person's property is located or the treasurer of the taxation district in which the person's property is located, if the taxation district collects taxes under s. 74.87. The treasurer shall enter the person's property on the next tax roll as property that qualifies for a lottery and gaming credit. Claims made under this subdivision are valid for as long as the property is eligible for the credit under sub. (9) (bm).

(bn) 1. If a person who owns and uses property as specified under sub. (1) (dm), as of the certification date under par. (a), transfers the property after the certification date, the transferee may apply to the treasurer of the county in which the property is located or, if the property is located in a city that collects taxes under s. 74.87, to the treasurer of the city in which the property is located for the credit under sub. (9) (bm) on a form prescribed by the department of revenue. The transferee shall attest that, to the transferee's knowledge, the transferor used the property in the manner specified under sub. (1) (dm) as of the certification date under par. (a). A claim that is made under this subdivision is valid for as long as the property is eligible for the credit under sub. (9) (bm).

2. A person who is eligible for a credit under subd. 1. but whose property tax bill does not reflect the credit may claim the credit by applying to the treasurer of the taxation district in which the property is located for the credit by January 31 following the issuance of the person's property tax bill. Claims made after January 31, but no later than October 1 following the issuance of the person's property tax bill, shall be made to the department of revenue. Paragraph (bm), as it applies to processing claims made under that paragraph, applies to processing claims made under this subdivision.

(c) If a person who is certified under par. (a) to claim the credit under sub. (9) (bm) becomes ineligible for the credit under sub. (9) (bm), that person shall, within 30 days of becoming ineligible, notify the treasurer of the county in which the property is located or, if the property is located in a city that collects taxes under s. 74.87, the treasurer of the city in which the property is located.

(d) If the department of revenue determines that a credit was extended to a taxpayer who was not entitled to the credit for reasons other than that the taxpayer failed to complete the information required under par. (a), the department of revenue shall instruct the appropriate taxation district to collect the credit as a special charge on the next property tax bill issued for the property.

(e) A county or a city, if the city collects taxes under s. 74.87, may use a certification procedure other than the certification procedure under par. (a) if all of the following apply:

1. The certification procedure includes a method to identify taxable property that is used as the property owner's principal dwelling.

2. The certification procedure includes a procedure that is similar in effect to the procedure described in par. (bm).

3. The certification procedure is approved by the department of revenue.

(f) Each county and city that administers the credit under sub. (9) (bm) shall implement a procedure to periodically verify the eligibility of properties for which a credit is claimed. In 2004, and every 5th year thereafter, each county and city that administers the credit under sub. (9) (bm) shall file a report with the department of revenue, in the manner and at the time prescribed by the department of revenue, that describes the procedures that the county or city uses to verify the credits claimed under this subsection and evaluates the efficacy of such procedures.

(11) LOTTERY AND GAMING CREDIT ESTIMATED FAIR MARKET VALUE. (a) For property taxes levied in 1997 and thereafter, the estimated fair market value shall be determined under par. (b).

(b) Before October 1, the department of administration shall determine the total funds available for distribution under the lottery and gaming credit in the following year and shall inform the joint committee on finance of that total. Total funds available for distribution shall be all moneys projected to be transferred to the lottery fund under ss. 20.455 (2) (g) and 20.505 (8) (am), (g) and (jm) and all existing and projected lottery proceeds and interest for the fiscal year of the distribution, less the amount estimated to be expended under ss. 20.455 (2) (r), 20.566 (2) (r), and 20.835 (2) (q) and less the required reserve under s. 20.003 (5). The joint committee on finance may revise the total amount to be distributed if it does so at a meeting that takes place before October 16. If the joint committee on finance does not schedule a meeting to take place before October 16, the total determined by the department of administration shall be the total amount estimated to be distributed under the lottery and gaming credit in the following year.

(c) Before October 16, the department of administration shall inform the department of revenue of the total amount available for distribution under the lottery and gaming credit in the following year. Before November 20, the department of revenue shall calculate, to the nearest \$100, the estimated fair market value necessary to distribute the total amount available for distribution under the lottery and gaming credit in the following year.

(d) Before November 20, the department of revenue shall calculate, to the nearest \$100, the estimated fair market value necessary to distribute the total amount available for distribution under s. 79.15.
